**NL author shares book with Troop 418**  
 by New Lenox Patriot Staff

October 14, 2009 | 03:57 AM

A little extra bite was added to the first meeting of New Lenox Girl Scout Troop 418, as local author and resident Norm Cowie paid the girls a visit to talk about his newest book, "Fang Face."

The Girl Scouts of New Lenox Troop 418 are joined by New Lenox author Norm Cowie (back right), who spoke to the troop about his new book, "Fang Face."

"Fang Face," which hit shelves last month, tells the story of Erin, a teenager who, after being bitten by a vampire, is now on her way to the dark side unless her family and friends can win the battle against the villainous Nosferatu. Cowie brought vampire fangs for all the girls to wear, and troop leader Julie McDade said she would "highly recommend" Cowie to speak to other troops.

"His presentation was informative as well as entertaining, outlining all the important areas we needed him to hit," McDade said.

The Girl Scouts are working on their "Once Upon A Story" Interest Project.
